Profile Summary

Full Stack Developer with expertise in the MERN stack, building responsive web applications with secure authentication, optimized APIs, and scalable database solutions. Strong focus on creating efficient, user-centered designs and seamless front-to-backend integration.

Experience

Qvolv Technologies Pvt. Ltd.

July 2025 – Present

Full Stack Developer

Noida

- Contributing to the **Qvolv Platform**, a multi-tenant educational management system serving schools, universities, and industry partners.
- Designed and optimized **MySQL database schemas** using **Sequelize ORM**, defining relationships and efficient queries for users, teachers, students, institutions, and industry entities.
- Developed and maintained **Node.js** backend services with **Express.js**, implementing secure authentication using **JWT** and **role-based access control (RBAC)** for different user roles.
- Built and enhanced **React.js dashboards** with role-based views, improving usability and data visualization for administrators, educators, and students.
- Implemented workflow-driven features for **user management**, **content management**, and **LMS modules**, ensuring smooth interaction across platform roles.
- Collaborated with cross-functional teams to translate business and functional requirements into scalable technical solutions.
- Assisted in **testing, debugging, and performance optimization** of production features to improve reliability and user experience.

SequelString AI Pvt. Ltd.

December 2024 – June 2025

Full Stack Developer Intern

New Delhi

- ONDC Domains Experience:** Worked across multiple ONDC domains including Agriculture, Intracity Mobility, Bids & Auctions, Life Insurance, and Retail, building solutions aligned with ONDC standards to improve user journeys.
- Intracity Domain:** Developed features for city transport services such as fare calculation and trip booking to streamline local travel.
- Bids & Auction Domain:** Implemented bidding and auction workflows enabling fair and transparent bid placement and processing.
- Agriculture Domain:** Worked on product ordering flows including product listings and order management.
- RSF (Reconciliation and Settlement Framework):** Helped automate payment reconciliation and settlement processes for accurate transaction tracking and record maintenance.
- Life Insurance Domain:** Created end-to-end insurance purchase flows including policy selection and online purchase.
- Retail Domain:** Built retail workflows covering product discovery, order processing, returns, and delivery management.

Projects

Portfolio Website | [GitHub](#) | [View](#) | *ReactJS, Tailwind CSS*

October 2024

- Developed a dynamic and responsive portfolio website using ReactJS, Tailwind CSS, and Framer Motion, showcasing personal projects, skills, and a brief introduction with engaging animations.
- Implemented reusable components, state management, and interactive features like React-Count for project and experience statistics, ensuring a seamless user experience.
- Highlights personal details, programming languages & projects, providing overview of expertise and skills in appealing design.

Ecommerce Website | *HTML, CSS, JavaScript*

April 2024

- A HTML, CSS and JavaScript based ecommerce website which has visually attractive and user-friendly interface.
- Implemented Local Storage for user authentication, allowing secure login and signup processes where user credentials are stored locally, ensuring data persistence across sessions.
- Created a dynamic login and signup system using JavaScript, enabling users to register and securely log in without the need for a server-side database.

Canvas Craft | [GitHub](#) | *HTML, CSS, JavaScript*

January 2024

- Designed and developed a feature-rich Canvas Craft website using HTML, CSS, and JavaScript to offer a dynamic and interactive drawing experience for users.
- Built a fully functional drawing canvas application where users can easily draw, erase, and create custom shapes, enhancing the flexibility of their creative process.
- Integrated advanced features, such as a colour palette for personalized selections and the option to save, created drawings in JPG format, ensuring users can keep and share their artwork

Technical Skills

Programming Languages : JavaScript (ES6+), TypeScript, HTML5, CSS3

Frontend Technologies : React.js, Bootstrap, Tailwind CSS

Backend Technologies : Node.js, Express.js, REST APIs

Databases : MongoDB (Mongoose), MySQL, Sequelize ORM

Tools and Platforms : GitHub, VS Code, Postman

Education

Department of Computer Science and Application

Rohtak, India

MCA, Maharshi Dayanand University; Percentage – 72.1

July 2022 - June 2024

***Courses:** Operating System, Data Structures and Algorithms, Artificial Intelligence, Machine Learning, Networking, Databases*

Trainings

QSpiders

June 2024 – Nov 2024

Full Stack Development
